# **Geography of the Physical Environment**

The *Geography of the Physical Environment* book series provides a platform for scientific contributions in the field of Physical Geography and its sub-disciplines. It publishes a broad portfolio of scientific books covering case studies, theoretical and applied approaches as well as novel developments and techniques in the field. The scope is not limited to a certain spatial scale and can cover local and regional to continental and global facets. Books with strong regional focus should be well illustrated including significant maps and meaningful figures to be potentially used as field guides and standard references for the respective area.

The series appeals to scientists and students in the field of geography as well as regional scientists, landscape planners, policy makers, and everyone interested in wide-ranging aspects of modern Physical Geography. Peer-reviewed research monographs, edited volumes, advance and undergraduate level textbooks, and conference proceedings covering the major topics in Physical Geography are included in the series. Submissions to the Book Series are also invited on the theme 'The Physical Geography of...', with a relevant subtitle of the author's/editor's choice. Please contact the Publisher for further information and to receive a Book Proposal Form.

## Acknowledgements

I am grateful to Farajollah Mahmoudi, Mojtaba Yamani, Seyed Mohammad Zamanzadeh, and faculty members of the University of Tehran for scientific advice at all stages in the preparation of this book. Also, I am thankful to the University of Tehran and to the Iranian Cultural Heritage and Tourism Organization for allowing me to go to the interior part of the Iranian Desert, especially Lut Desert world heritage. I am also grateful to Amir Moradi, Anvar Moradi, Mohammad Ali Nezammahalleh, Afsaneh Ehdaei and Omid Rahimi for preparation of maps and editing of the text. I thank Vhaid Mohammadnezhad for courtesy of some maps about alluvial fan evolution in Iran. I am also thankful to Hojat Kamali, Alireza Amrikazemi, Sahar Maleki, Mohammad Gaeini, Ebrahim Nikkhoo, Mehdi Yaghoubi, Nourollah Nikpour, Younes Sharyatmadari, Reza Safaeirad, Daryoush Mehrshahi, Mohammad Reza Taherdin, Esmaeil Allahpour, Reza Khlili Varzaneh, and Matin Setayesh for assistance in providing some photos of Iran. I also thank Springer, particularly Ambrose Berkumans, Michael Leuchner, Doris Bleier, and Robert Doe for their support to prepare this book. Finally, I thank Moein Afzali, Seyed Ahmad Rounaghi, and Hamed Shadravan for accompanying me in field survey in Lut Desert.
